

FOR IMMEDIATE RELEASE

The International Space Elevator Consortium (ISEC) is proud to announce the 2014 Space Elevator Conference!

This annual event will be held at the Museum of Flight in Seattle, Washington from Friday, August 22nd through Sunday, August 24th.

Seattle, WA, August 18th, 2014 - Come experience learning, brainstorming, and international collaboration in an atmosphere of history, invention, and discovery! In addition to the 3-day conference, a Family Science Fest will be held on Saturday, August 23rd.

3-Day Technical Conference

ISEC is very pleased to announce that long-time science journalist Leonard David will give the Keynote address at this year's conference. We are very excited to have Mr. David with us this year and we're sure that his insights will be fascinating.

The theme of this year's conference is "Space Elevator Architectures and Roadmaps." Papers will be presented on this topic and other space-elevator related topics. There will be mini-workshops on Research Activities and Global Cooperation, Marine Node Design Concepts, and Space Elevator Architectures and Roadmaps as well as the ever popular Shotgun Science Session where all conference attendees can present their ideas in five minutes or less.

Family Science Fest

The Family Science Fest on Saturday, August 23rd will also be held at the Museum of Flight. This event is open to the public (no registration required) and is included in the museum admission price. The Family Science Fest includes Space Elevator 101 and 201 presentations, a youth robotics competition, exhibits from science organizations and clubs, and much more.

More details of the conference program and the Family Science Fest events are posted at <http://spaceelevatorconference.org>, including information on registration for the technical conference and lodging. Registration for the technical conference closes August 15th.

The Space Elevator is one of the most magnificent Engineering projects ever conceived. It promises abundant access to space and a multitude of benefits for humanity. Come to the conference and hear presentations and join discussions with people who are working to make space elevators a reality!

About The International Space Elevator Consortium (ISEC)

The International Space Elevator Consortium (ISEC) is composed of individuals and organizations from around the world who share a vision of humanity in space. Our Vision is a world with inexpensive, safe, routine, and efficient access to space for the benefit of all mankind. Our Mission is to promote the development, construction and operation of a Space Elevator (SE) Infrastructure as a revolutionary and efficient way to space for all humanity.
